This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

TABLE DES FIGURES

CONTENUES DANS LES PLANCHES

NUMÉROS DES PLANCHES	NUMÉROS DES FIGURES	DÉSIGNATION DES FIGURES
XLI	236 à 243	Exemples d'exploitations souterraines.
XLII	244 à 248	D°.
XLIII	249 à 253	D°.
XLIV	254 à 258	Exemples d'exploitations à ciel ouvert.
XLV	259 à 271	Exploitation de la tourbe. — Matériel pour le transport intérieur.
XLVI	272 à 277	Suite du matériel pour le transport intérieur.
XLVII	278 à 282	D°.
XLVIII	283 à 288	D°.
XLIX	289 à 295	Plans inclinés automoteurs.
L	296 à 299	D°.
LI	300 à 307	Transports en vallées. — Transports mécaniques sur niveau.
LII	308 à 314	Suite des transports mécaniques sur niveau.
LIII	315 à 319	D°.
LIV	320 à 322	Appareils d'extraction. — Systèmes divers de détentes variables.
LV	323	Ensemble d'une machine à vapeur d'extraction.
LVI	324	D°.
LVII	325	D°.
LVIII	326	D°.
LIX	327	D°.
LX	328 à 330	Appareils d'extraction. — Engins divers.
LXI	331 à 336	D°. — D°. — Théorie des chaînes-contre-poids.
LXII	337 à 345	Théorie des câbles plats et des tambours coniques.
LXIII	346 et 347	Suite des engins divers d'extraction. Câbles et molettes.
LXIV	348	D°. — Chevalements.
LXV	349 et 350	D°. — D°.
LXVI	351	D°. — D°.
LXVII	352 à 355	D°. — Recettes extérieures.
LXVIII	356 à 358	D°. — Cages et balances.
LXIX	359 à 362	D°. — Clichages — Recettes intérieures.
LXX	363 à 367	D°. — Clichages. — Freins à vapeur.
LXXI	368 à 374	D°. — Appareils de sûreté. — Parachutes, etc.
LXXII	375 à 378	D°. — Suite des parachutes.
LXXIII	379 à 385	Descenderies. — Échelles mécaniques, ou Fahrkunste à deux tiges et à tige unique.
LXXIV	386 à 388	Suite des échelles mécaniques. — Warocquères.
LXXV	389 à 397	Théories relatives aux affaissements produits par les travaux souterrains.
LXXVI	398 à 409	Plates-cuves et serrements divers.
LXXVII	410 à 415	Asséchement des mines. — Pompes en bois. — Tirants. — Bennes à eau.
LXXVIII	416	Ensemble d'une machine à vapeur d'épuisement.
LXXIX	417	D°. — Machine du Cornouailles.
LXXX	418	D° — Machine à traction directe.
LXXXI	419	D°. — D°. — Avec la détente à deux cylindres de Woolf.
LXXXII	420	D°. — D°. — Avec le régénérateur de Bochkoltz.
LXXXIII	421 à 428	Asséchement des mines. — Pompes d'épuisement.
LXXXIV	429 à 435	D°. — D°.
LXXXV	436 à 439	D°. — Pompes d'avaleresse.
LXXXVI	440 à 448	Aérage des mines. — Ventilation naturelle et ventilation artificielle à l'aide des foyers.
LXXXVII	449 à 451	D°. — Ventilation à l'aide de machines.
LXXXVIII	452	D°. — D°.
LXXXIX	453 à 456	D°. — D°.
XC	457 à 459	D°. — D°.
XCI	460 à 462	D°. — D°.
XCII	463 à 465	D°. — D°.
XCIII	466 à 468	D°. — D°.
XCIV	469 à 479	Aérage et éclairage. — Distribution des courants d'air. — Lampes ordinaires. — Lampes de sûreté.
